\* Culinary contract is limited. Until further notice, LMC will triage specimens that cannot be processed in-network. \*\* This List is not all-inclusive and is subject to change.

Aurora Diagnostics makes every effort to ensure the accuracy and timely update of this Health Plan/Payer List. However, changes may occur, and the information contained may be out of date at any given time. Please verify this list with your Aurora Diagnostics representative.

LMC is the exclusive pathology provider for the Valley Hospital System of Las Vegas, HCA Hospital System of Las Vegas, University Medical Center of Southern Nevada, Western Arizona Regional Medical Center, Valley View Medical Center, La Paz Regional Hospital, Havasu Regional Medical Center, and Valley Hospital. We accept assignment for all cases performed at these facilities. LMC has current contracts in place with the payers listed above. LMC accepts assignments on all commercial PPO payers. To accept assignment, we must receive a copy of the patient's insurance card, a completed claim form and the patient's diagnosis. Effective: May 2015

## INSURANCES WHICH WILL BE TRIAGED BY LMC

- GEHA
- SENIOR DIMENSIONS
- \*CULINARY HEALTH FUND
- HEALTH PLAN OF NEVADA (HPN)
- SMART CHOICE/SIERRA MEDICAID

## How does it work?

Offices simplify their workflow to include only LMC requisitions. The office sends all specimens, regardless of type or insurance, to LMC for processing. Specimens are accessioned at LMC, and then triaged based on insurance/payer, test type and device. Only work that is “in-network” and that can be completed by LMC is processed by LMC. Any work that cannot be processed by LMC is sent to the proper lab based on insurance/payer information (provided by office/patient).

## Will my specimens be delayed?

No! Because the other labs (Quest, Labcorp and CPL) pick up these specimens directly from us several times a day. This ensures that your specimens are processed the same day at these labs, resulting in zero delay in turn around, as if sent directly from your office.

## What if the specimen gets sent to the wrong lab?

In a traditional workflow, your office does the “triaging” to each lab. Patients tend to hold the physician’s office responsible when specimens get incorrectly sent to a lab, therefore placing financial risk on the office. Our clients can rest assured that when all work is sent to us, we’ll be responsible for proper routing. In the event we incorrectly route a specimen to the wrong lab, we will be responsible for that error.

**If you have any questions about any particular health plan or would like us to approach any additional plans about possible participation, please contact us at 702.732.3441.**

\*Culinary Health Fund IS accepted In-Network from Las Vegas Surgery Center, Ambulatory Surgery Center and Valley View Surgery Center.
